Waikato and Hamilton Travel and Events 2018

The new **Perry Bridge** (shown on the cover) which links the Ngaruawahia, Horotiu and Hamilton sections of Te Awa River Ride crosses the Waikato river is visible from the road. The design of the bridge is a woven flax design along the deck which features blue and green; a resin applied to the surface will also mean the bridge illuminates in the dark. Adjacent seating and bike racks will complement the structure.

New underpass tunnel connects Grey St to the Hamilton Gardens

## New facilities in Hamilton

Hamilton City continues to prosper and develop. As well as the expressway sections being built north and south of the city which will certainly help with traffic flow, attention is being paid to people-friendly facilities which will aid cyclist and pedestrian movement around the city. Among these are the new underpass from Grey St to the Hamilton Gardens which is a tunnel with brightly painted mural walls and which will certainly provide better safety and access to the Gardens.

The new Western Rail Trail from the inner city to Innes Common and Kahikatea Drive has won a 'Big Bike Bling Award' at the 2017 Bike to the Future Awards in Christchurch. This cycle path has been landscaped and planted and is a huge improvement on the waste ground there previously and is growing in popularity.

At Hamilton Lake a new twin electric barbecue area has been installed by the Hamilton Yacht Club, courtesy of funding from the Hamilton Chartwell Lions Club to improve this popular and pleasant park. The BBQ will be available from 7am to 10pm and has a timer to shut it off after 30 mins.

## BLASTACARS

Hamilton has had a number of go kart tracks over the years but today there is just one. Blastacars Drift Karts has been offering its drift karting experience in Frankton since 1987.

Hamilton local Peter Zyp created the unique kart in the 80's. With a background in Speedway racing he wanted to offer an affordable and safe experience for people to try drifting. The karts are not like traditional Go Karts, the track and karts are custom designed for racers to try an authentic drift where good throttle control and counter steer can result in your sliding around the entire track or cat and mouse chases with you centimetres away from your opponent.

Blastacars is suitable for ages 8 and

above, with different speed options for beginners to seasoned racers. They boast the most powerful kart engines in New Zealand, with their pro karts boasting a 390cc Honda engine. The new facilities offer an exciting experience and up to 12 can race at once on the indoor track which is open day or night, rain or shine.

The interior and themed décor and lighting are a must see and the track features LED lighting and effects.

# Your Wedding

From the Bridal Gallery  
Owners Pam and Aly say gowns are still vintage inspired with a new twist on the fashion.  
Long line bodices and soft flowing skirts, bodices being created in delicate lace and beaded for texture and sparkle.  
Straps, shoulders and yokes on the bodices are a feature of gowns this season.  
Trains on gowns are still on trend and veils are making a big comeback.  
Then there are the brides who still want the drama of a beautiful beaded gown and we are here to help.

**Bruce McLachlan** is a well known Hamilton artist. He has painted several murals around Hamilton, the wall outside his studio featuring Nelson Mandela has drawn many admiring comments, some from overseas visitors. Bruce, an ex-signwriter, originally started painting flowers and moved on to portraits, some of musicians like Bob Dylan and Hendrix. His influence are Klimt, Egon Schiele and New Zealand portrait artist Goldie. Bruce is now developing his own style, he paints from the heart and tries to show life in the lines of the faces he paints.

## The Emmett Technique

The Emmett Technique is a unique body therapy created by Ross Emmett used to ease pain and discomfort, increase movement and improve quality of life. The technique works on an understanding of the body's response to light touch. The therapist's touch allows access to the brain, via specific points which directly in-

fluence muscle action and attachment to memory and emotion. It can relieve neck and shoulder restriction, migraines, cramps, joint restriction and discomfort, fluid retention, and much more. Emmett is a complete therapy, but also works in combination with other treatments, allowing them to work more efficiently. [www.rossemmett.com.au](http://www.rossemmett.com.au)

# Te Awa River Ride

It is now possible to cycle the whole way from Hamilton to Ngaruawahia in one direction and to Cambridge and beyond in the other.

From Hamilton to the Velodrome it is a road ride as this section has still to be completed.  
[te-awa.org.nz](http://te-awa.org.nz)

## Waikato Expressway Hamilton Section update

The Hamilton section is a 'greenfields' project that skirts the east of Hamilton City. It does not follow any existing roads but will join the Ngaruawahia section in the north with the Tamahere/Cambridge section in the south. Eleven bridges are under construction, with five more due to commence by Christmas 2017.

The Morrinsville Road Bridge is expected to open in late October, followed by the Gordonton Road Bridge in December. The Matangi Road Bridge is expected to open in February 2018.

These bridges have been built 'on the ground', with the expressway route to be excavated beneath the bridges this summer. A fourth bridge – the East Coast Main Trunk Rail Bridge at Ruakura – will be opened to construction traffic only, by Christmas 2017.

Kay Road was originally expected to reopen to traffic before Christmas 2017 but bridge construction has been affected by weather and difficult ground conditions. It will now open in June 2018.

Once Kay Road is reopened, Horsham Downs Road will close near the intersection with Borman Road for up to eight months to build another bridge over the expressway.

A new section of expressway will be constructed between Kay Road and Ruakura Road.

A new bridge will be built over Puketaha Road and a full interchange at Greenhill Road/Paradise Boulevard.

A new section of expressway and a series of gully bridges will be built between Morrinsville Road and SH1 Cambridge Road.

## North Waikato

The old State Highway is in the process of being upgraded to the Waikato Expressway, known as the Longswamp section, which will join up at Taupiri to the Gordonton/Ngaruawahia/Hamilton section. The Expressway will bypass Huntly and will make the journey to and from Auckland considerably faster.

**The Hakarimata Scenic Reserve** near Ngaruawahia is a great place to see kauri and to enjoy a walk or tramp through native bush.

The reserve protects 1,850 hectares of native forest. The large kauri on the Kauri Loop Track is rare for this area. Climb to the summit of Hakarimata (374m) and enjoy good views for the summit tower out towards the coast, across the Waikato Basin and down to Ruapehu.

## Ngaruawahia

Seat of the Maori King  
Waikato District

An important cultural location, Ngaruawahia is the location of Turangawaewae Marae - residence of the Maori King.

The town is also the location for the annual Ngaruawahia Regatta - showcasing traditional Maori waka.

### Te Puia Springs Natural Hot Pools

The Kawhia Museum and Information Centre will advise you about the loca-

tion of the hot springs on Ocean Beach, where heated water bubbles up through the sand from a geothermal spring. They'll even rent you a small shovel to dig your own spa pool! For about 2 hours before and after low tide you can dig in the sand on a small section of Ocean Beach where there is geothermal activity. # Hauraki Rail Trail

Thames, Paeroa, Waihi, Miranda, Kaiaua, Te Aroha, Matamata

The Hauraki Rail Trail is a three day ride for most or a two day ride for fit cyclists, making it an ideal weekend experience. It can be accessed from Thames, Paeroa, Waihi, or Te Aroha. There are shorter day riding options. The trail shows some of the best scenery in New Zealand through areas rich in pioneering history. A major highlight includes riding through the scenic Karangahake Gorge, on the Waihi stretch. The Hauraki Rail Trail is shown as a dotted line on the map. The new section will stretch from Kopu to Kaiaua.

## Grand Opening of the Pukorokoro-Miranda section of the Hauraki Rail Trail - 18 Nov 2017

Ngatea is the main service centre on the Hauraki Plains, located on SHW 2, and within an hours drive of Auckland. Nestled on the banks of the Piako River, Ngatea has an array of shops and eating establishments on offer, the picturesque water gardens to visit, and the newly developed Pioneer Park. Miranda and Kaiaua are on the Pacific Coast Highway. Visit the internationally renowned Shorebird Centre, relax in the warm mineral pools at the Miranda Hot Springs, enjoy a day at the beach or check out the many tramping and biking tracks in the ARA Parks.

Te Aroha is a town with many historic associations, and this shows in its charming architectural buildings. One of the highlights is the 29 acre landscaped Edwardian style Domain which houses the Te Aroha Mineral Spas - private, indoor hot tubs filled with naturally hot soda water and the world's only hot soda fountain - the Mokena Geyser. Wander through the historic Cadman House Museum - New Zealand's original sanatorium. The Domain is also home to the Te Aroha Leisure pools complex - public, outdoor, heated pools, including outdoor spa. Picnic in the Domain, and then proceed with one of the many bushwalks, including a track from the park up the mountain or some mountain biking. A 100-year-old track starting near the bottom of Mt Te Aroha leads to Tutumangao Waterfall. Follow the Heritage Trail of fine historic build-

ings and monuments dating back to the early 1880s. The Wairongomai Valley is a significant gold mining site in the Kaimai-Mamaku Forest Park. Gold was found in the Wairongomai Valley in 1881. The Piako County Tramway was built in 1882-83 and is New Zealand's oldest known railway with the original rail still in place. There are a number of historic areas to explore in the valley, such as Hardy's Hut, Fern Spur Incline and winding gear, the Bendigo Battery, the Low Level Drive, and the May Queen Incline and winding gear. The Wairongomai Valley lies at the end of Wairongomai Loop Road. The Valley is just four kilometres south of Te Aroha, near State Highway 26.

## Historic Town Hauraki District

Paeroa is "World Famous in New Zealand" and overseas – for its Big Bottle. At 7 metres high, the Lemon and Paeroa Bottle is a permanent reminder of the therapeutic Paeroa Springs Water discovered before 1900, which, with the addition of lemon, became known as New Zealand's own soft drink.

Originally a thriving river port, the town was first laid out in the 1870s and the Historic Maritime Park and Museum houses artifacts from this era. Paeroa is also known for the many antique, second hand and retro shops where you can spend hours fossicking.

The site of the original gold rush in 1875, Karangahake and Mackaytown have returned to peaceful activities; fishing, gardens, cafes and a winery.

In Karangahake Gorge, walk the 1km long railway tunnel and the Windows Walk and follow the Ohinemuri River through to Waikino.

Good swimming and picnicking sites are easily accessed.

Walking tracks lead into the Kaimai-Mamaku and Coromandel Forest Parks.

## WAIKATO RIVER TRAILS

With 100km of cycling and walking trails along the Mighty Waikato, the Waikato River Trails offers some of New Zealand's most stunning views and spectacular scenery. Walkers and cyclists can choose just one section of the trails or take more time to cover the entire distance, enjoying New Zealand native bush, grassed farmland, exotic forest, open reserves, wetlands, historic landmarks, interesting rock formations. The best time to ride the trail is in spring/summer (September to May). The Waikato has a fine temperate climate so all but the mid-winter months are ideal for riding.

Karapiro (Arapuni) to Pokaiwhenua Bridge is an easy to intermediate track 11.5km long. This is one of the easiest sections on this trail. It is Grade 2 with a few short Grade 3 hills. Park in Arapuni and ride up the trail to Little Waipara Reserve and back. The Huihuitaha Wetland, with boardwalk, is a highlight of this section. The Rhubarb Café in Arapuni is a very popular place to head for after the ride. Arapuni to Waipapa Dam, is an advanced section, 36km in length. This section includes some road riding from Jones Landing to the end of Waotu South Rd. Jim Barnett's Reserve is full of birdlife and there is a 1000-year-old totara that is worth a visit. The Mangarewa suspension bridge 42m above the stream is a thrill.
